

Flower sculpture ZIEDU PULKSTENIS

Foto autors Ventspils Tūrisma informācijas centra foto arhīvs

The diameter of the watch is 5 meters.

It has hour, minute and second readings.

In summer, around 2,500 flower seedlings are planted at the base of the clock, but in winter it is decorated with frost-resistant plants and special lighting.

The flower clock rings every hour.

Created in 2022.
