

Užava river flows into the sea

Foto autors Ventspils Tūrisma informācijas centra foto arhīvs

In Użava, at the mouth of the River Użava in the sea, there is a recreational place arranged by the Latvian State forests with tables and fire places.

. There are no charges for staying at the place of rest.

The estuary of the River Użava is one of the rare places in Europe, where an unregulated river flows into the sea can be seen.
