

In March, VIZIUM offers new topics for science shows and creative workshops

The best way to explore science and understand complicated things is to do so in a fun and attractive way – through science shows, experiments, and practical activities. In March, the visitors of the VIZIUM Science Centre will have the opportunity to explore the world of science, while the creative workshops will focus on the weather.

In addition to the visit to the VIZIUM exposition hall, everyone interested is welcome to enjoy science shows and creative workshops. From March to May, the visitors of the VIZIUM Science Centre are welcome to enjoy the new science show Physics All Around Us, where the laws of physics will be explained in an exciting and understandable way.

The science show Physics All Around Us will be held from March to May:

- Tuesday – Friday 12.00.
- Saturday – Sunday 12.00; 15.00.

In March, the creative workshops will deal with various natural phenomena. The visitors will learn more about the wind and wind generators, the sun and UV rays, and about how they affect humans. They will also explore the sky – the clouds and the rainbow. A new workshop content is offered every weekend

In March, the technical creative workshops The Weather Month will take place every Saturday and Sunday at 13:00. 13.00.

Tickets to the creative workshops, a visit to the exposition hall, and the science shows are available at www.vizium.lv and the ticket office of the VIZIUM Science Centre. More information is available by phone calling 66776633, via e-mail info@vizium.lv, on social networks of VIZIUM (@viziumventspils), and also on its website www.vizium.lv.

The event takes place as part of the project Establishment of an Innovation Centre in Ventspils of the Activity Innovation Centres under the programme 'Science and Education' of the EEA and Norway Grants for 2014–2021.
