SU MobilCentrs is a commercial organisation. The social enterprise was set up to meet the city population's demand for mobility services for people with mobility disorders.

MobilCentrs has all the necessary equipment to ensure mobility for people with short- or long-term loss of mobility, starting from crutches and ending with electric wheelchairs that can be rented for days.

Services:

1. Lifting disabled people to the mountain (SIA MobilCentrs);
2. Walks (SIA MobilCentrs – equipment deliveries + assistance services, Integration Incubator Society – equipment).

Accessories:

- climbing stairs – lifting equipment for disabled people Sano Liftkar PTR160;
- off-road driving – Freedom Trax (US) FT1 all-terrain wheelchairs for people with special wheelchair needs.

Track Freedom Trax (USA), model FT1 for people with special wheelchair needs and lifting equipment for disabled Sano Liftkar PTR160 for climbing stairs. Equipment provides an opportunity to move on unstable terrain – sand, snow, grass, and to reach mountain peaks, as well as to enjoy the natural and urban landscapes from the local mountain – Lemberga hūte.

The service will be offered free of charge to all persons with disabilities who wish to receive mobility services by previous appointment – for walks on the city beach, in the Deer Garden, at the foot of Lemberga hūte hill and other nature sites within the city borders. Assistant services are also offered.
