

Enjoy Ventspils in the Easter Spirit!

As Easter approaches, Ventspils, as every year, is festively decorated in the theme of the celebration. There is also a varied programme of events to suit all tastes, inviting you to visit Ventspils and the Ventspils District during the holidays to spend active time with your family!

Easter is the spring solstice, celebrating the coming of spring and the sun. With it people attempt to help the earth awaken through ritual actions to ensure its fertility in a timely manner and promote its blessing. Like the painting of eggs, swinging is one of the most important Easter rituals, symbolically imitating the swaying and dancing of the sun on Easter morning. One should also swing a lot on Easter to avoid mosquito bites in summer.

Ventspils Municipality Council has been improving the city’s infrastructure for many years and now you can find swings in dozens of different places in the city – at the Blue Flag Beach, Renķis Garden, Seaside Park, Children’s Town, Children’s Park “Fantāzija”, Open Air Museum, sports grounds, courtyards of apartment buildings, etc. Their locations are summarised in**The Swing Guide**, available [HERE](#).

With the arrival of astronomical spring, the city is preparing for the first and very popular Spring Festival. In Ventspils, colourful Easter decorations have been installed in several places around the city, the locations of which are reflected in the Ventspils Tourism Information Centre’s guide “**Enjoy Ventspils in the Easter Spirit**”. New this year, an **important symbol** of the celebration and a favourite image of children – the **Easter Bunny** – has been placed in the New Town Square, together with Easter egg decorations painted by the students of Ventspils Art School. The colourful decorations will delight residents and visitors until the end of April.

During the Easter holidays, a varied programme of cultural, sporting and other activities is also prepared for the residents and visitors of Ventspils:
