The campsite is located in Jaunciems, Ventspils municipality, Targale parish. Camping houses are located in a birch grove, 600 meters from the Kurzeme Sea, in a quiet, peaceful place. The exit by the sea is along the former fisherman's road, which leads through a black-bellied wetland. By the sea, near and south is the mouth of the Irbe, to the north – the mouth of the Kikana. Campsite offers three summer cottages, a bathhouse, camper connection points and tent sites. In a separate hut there is a kitchen area, showers and toilets. Equipped campfires and barbecue are available.
