

West Coast Surf Club

Foto autors Rietumpiekrastes sērfa kluba foto arhīvs

We offer training in surfing, kiteboarding, SUP, windsurfing, wingfoil and small yacht sailing. We provide full service – training and inventory rental.

In the surf club, there is an opportunity to learn surfing in a specially created park, which simultaneously develops surfing technique on the water. The club also houses a surfing museum, where you can view boards painted by various popular Latvian artists, as well as a collection of boards produced by world-famous surfing masters.

In the surf club you can find out all the information about surfing culture in Latvia and the world. One of the founders of the club is the pioneer of many water and winter sports in Latvia – Renārs Bīrmanis. Our club also organizes special camps for young people, where they can learn surfing and surfskate during the week in the park created for it.

The club also offers accommodation in the Surf Museum and the sauna house. In cooperation with Boards.lv surf rental in Pāvilost, we organize corporate events with a full service offer – surfing training, equipment rental, catering.

We organize excursions for groups (up to 30 people) with the opportunity to try surfing and surfskate, as well as learn the history of surfing and other types of water sports in Latvia and the world.
