

DABALABA – Archery track

Foto autors Dabalaba foto arhivs

Archery is a great way to relax and rejuvenate in nature for people of all ages and fitness levels!

In the DabaLaba archery track you will:

- spend the day in nature,
- try your hand at shooting a classic bow,
- get to know Latvian animals better,
- enjoy archers' soup cooked over the fire,
- have a great time with your family, friends or team.

DabaLaba offers 2 lengths of archery tracks:

- The short course is ~1km long, 10 targets, runs along a pond, along the road through meadows, along a dam by the river (about 1.5h). Suitable for beginners and children.
- The long course is ~3.5km long, 20 targets, runs along a pond, through the forest, across meadows and along a dam by the river (about 3.5h). Suitable if you want a decent walk with a little challenge.

We will train everyone in basic archery techniques before you go on one of the tracks, and there will also be time to practice at the shooting range;

We offer classic longbows for shooting, each shooter also gets safety and comfort equipment;

The targets are in 3D format, all the targets are animals found in Latvia, next to each target there is an info board about each of the animals with interesting facts. Feel free to ask about the animals, our group captain will be ready to tell you lots of interesting things about them;

At the end of both the long and the short track, we will treat all shooters with archers' soup at our picnic area at the big table.

In the summer season (June, July, August) after the bow shooting activity you can make a reservation at the #Mežā café.

The bow shooting activity is suitable for children from 5 years old. Until this age, the child can go with the family.

The archery track is a trail in the forest, there may be small natural obstacles. Parts of the track are accessible with a stroller
