The chefs of the Vēja nodžoli restaurant will delight gourmets with a well-thought-out menu. The company's dishes are also on offer – deer hunted in local forests and fish from Lake Usma. In the menu you will find a selection of meat, fish and vegetarian dishes for everyone's taste, in the bar you will taste excellent coffee, tea and cocktails. Our restaurant is friendly for families with children – we have prepared a menu for small guests, as well as a playroom where you can spend time while waiting for the ordered meal.

The restaurant is open all year round and offers a seasonal menu. We offer festive tables for birthdays, banquets, weddings, larger and smaller celebrations, and catering for seminar participants.
