

Kuršu Kraukšķi

Foto autors: Kuršu Kraukšķu foto arhīvs

“Kuršu kraukšķi” are made in Latvia, more precisely in Ventspils, from rice, sea salt and various seeds. No added sugar, flavour enhancers or colourings. A great and crunchy alternative to the usual galettes.

We believe it is important to show people the variety of rice galettes and their possibilities. Our galettes are thin and crispy and we have already changed many people’s perceptions about the nutritional uses of galettes. We want people to realise that our products are not just ordinary foam puffs, but cool and tasty rice crisps that can offer a new and exciting experience.
