

Creative workshop “The Senses – Sight”

Foto autors: Zinātnes centrs "VIZIUM" foto arhīvs

Creative workshop “The Senses – Sight”. The workshop will allow the participants to explore the sense of vision, which is so crucial to humans. They will discover what ensures good vision in the human body and whether everything is always as it seems. Participants will have the opportunity to engage in various creative activities, such as looking through a microscope’s eye and creating their own optical illusions. For more information, visit: adre.se/darbnicasmaja.
