

Creative workshop “mBot2 Starts the Summer” at the Ventspils Science Centre VIZIUM

Foto autors: Zinātnes centra VIZIUM foto arhīvs

To make this summer a success, you need to start strong! The mBot2 robots will take care of that – they are fast, energetic and really powerful. Together we will learn what these robots are capable of and what their skills are, but we will have to be curious and use our brains to make it happen.
