These are the words from the Christmas concert's title song, "Rejoice, Stars", created by the well-known singer and composer Niks Matvejevs. The song wonderfully captures this unforgettable time of change, a time that makes us reflect and, more than ever, look to the stars, pray, seek, hope, and love. Music has always been the one thing that helps in difficult times, the one that can heal, support, and bring joy. We will be happy to meet you at our concerts!

The Christmas program is a tribute to our common mother – EARTH!

The concert will feature well-known and completely unheard compositions by Raimonds Pauls and Niks Matvejevs, as well as songs by Imants Kalniņš, Jānis Lūsēns, Uldis Marhilēvičs, Ingus Feldmanis, and songs from Marija's latest album "On the Bridge of Illusions", along with new original compositions.
