

Creative workshop at the Ventspils Science Centre VIZIUM: “Science and Illusion: What the Eyes See and the Mind Perceives”

In February, every Saturday and Sunday at 1:00 PM, families, children, young people, and anyone else interested are invited to participate in the **creative workshop “Science and Illusion: What the Eyes See and the Mind Understands.”**

A workshop where we will explore together how human vision and perception work. We will examine various optical illusions and even create some of our own. Discover how the eyes and brain work together to shape our view of the world.

You can register for the workshops at the VIZIUM ticket counter.

📅 Sat, 15.02.2025
