

“Little Researchers’ Workshop: Make Snow!” for preschool-aged children at the VIZIUM Science Center

Foto autors Science centre VIZIUM

Preschool-aged children have the opportunity to participate in the “Little Explorers’ Workshops,” where, through games, play, and engaging in fun activities with cheerful instructors, they can not only have a great time but also develop new skills and gain knowledge.

To inspire children’s creative skills and allow their imagination to flow, in the workshop, children will create artificial snow. Working in groups, they will have the opportunity to collaborate and draw inspiration from one another.

The registration form can be found [here](#).
